

OBJECTIVE

To secure a **SIWES placement** that allows me to apply both my software and hardware engineering skills while gaining practical exposure to real world engineering projects.

EDUCATION

B.Eng. Computer Engineering

Redeemer's University, Ede, Nigeria
Expected Graduation: 2027

COUSRES/CERTIFICATION

- Flutter & Dart – The Complete Guide (UDEMY).
- The complete Full- Stack Web Development Bootcamp (UDEMY).

SKILLS

- Flutter Framework
- Dart Programming
- Computer Networking
- App Optimization
- Communication

OJO

OLUWADAMILARE

COMPUTER ENGINEERING STUDENT

I am passionate about developing software and hardware solutions that merge innovation with real-world functionality. Skilled in Computer Networking, embedded systems, and mobile development

EXPERIENCE

FLUTTER DEVELOPER VESTI AI, INC. July - OCT 2025

- Designed and built Flutter mobile apps, including a digital ID card system and a CBT testing platform
- Integrated firebase for authentication and data storage, improving app scalability
- Strengthened my debugging skills by resolving UI lag and errors

TECHNICAL PROJECTS REDEEMER'S UNIVERSITY, EDE. JUNE 2023 - PRESENT

- Applied classroom knowledge in embedded systems and digital electronics to real world engineering projects
- Built and simulated and rfid- based access controls system using Arduino and proteus 8
- Performed network setup and troubleshooting enhancing practical networking and hardware connectivity skills
- Conducted ARM SoCs bus contention analysis with Gem5 and Qemu gaining understanding of system architecture and memory performance

WEB DEVELOPER PERSONAL PROJECT SEP 2022 - PRESENT.

- Built and hosted a personal portfolio website showcasing project and learning milestones using HTML,CSS and JavaScript
- Experimented with front end design principles creating responsive and user-friendly interfaces
